KOUSTAV PAUL

BI & Data Analytics Engineer

Kolkata, India | +91 8240086343 | pkoustav6@gmail.com | linkedin.com/in/koustav-paul-0737a316b | koustavpaul.in

PROFESSIONAL SUMMARY

Results-driven **BI & Data Analytics Engineer with 4.5+ years of experience** architecting enterprise data solutions across **Microsoft Fabric, Azure Synapse, and Power BI (Import Mode & Live Connection)** within the **Real Estate domain**. Proven expertise delivering end-to-end analytics lifecycles: multi-source data ingestion (SAP, SFTP, SQL), cloud Lakehouse/Warehouse design (Azure Blob Storage, Synapse Dedicated SQL, Fabric), SSAS tabular modeling, and advanced DAX visualizations. Recognized for proactive **client communication, comprehensive data dictionary development, and rigorous UAT governance**. Spearheaded enterprise innovation POCs in **Microsoft Fabric, Enterprise Data Ontologies, and GenAI Data Agents using Copilot Studio, Microsoft Foundry, and MCP Servers**. Microsoft Certified: **DP-700, DP-600, and PL-300**.

TECHNICAL SKILLS

- **BI & Semantic Modeling:** Power BI (Desktop & Service, Import Mode & Live Connection), SSAS Tabular Models, Complex DAX Measures, DAX Studio, Tabular Editor
- **Cloud & Data Engineering:** Microsoft Fabric (Workspaces, Lakehouses, Warehouses, Pipelines), Azure Synapse Dedicated SQL Pools, Azure Blob Storage (ADLS Gen2)
- **Database & Shaping Tools:** SQL Server (SSMS), T-SQL (Stored Procedures, Optimized Views, Query Optimization), Python, Power Query Editor
- **GenAI & Innovation (POCs):** Microsoft Copilot Studio, Microsoft Foundry, Model Context Protocol (MCP) Servers, Autonomous Data Agents, Enterprise Data Ontologies
- **Domain & Project Governance:** Real Estate Analytics (Lead, Sales, CRM, Channel Partner Analysis), Client Stakeholder Management, Data Dictionary, UAT Testing
- **Security & Administration:** Dynamic Row-Level Security (RLS), Role-Based Access Control, On-Premises Data Gateways, Automated Pipeline Mail Alerts

WORK EXPERIENCE

Embee Software Pvt. Ltd. | Kolkata, India — BI & Data Analytics Engineer **May 2022 – Present**

Project 1: Real Estate SQL-to-Power BI Analytics & Executive Reporting Platform

- **Data Engineering & SSMS:** Engineered optimized T-SQL views and stored procedures in SSMS on a SQL Server database, structuring normalized real estate transactional data and boosting query execution by 45%.
- **Power Query Editor & Dual-Mode:** Ingested and cleansed datasets via Power Query Editor, configured models in Power BI Desktop across both Import Mode and Live Connection, and authored complex DAX calculations for occupancy KPIs.
- **Security & Governance:** Implemented Role-Based Access Control and Row-Level Security (RLS); established comprehensive data dictionary standards, drove direct client communications, and led UAT testing to executive sign-off.

Project 2: Multi-Milestone Real Estate Enterprise Intelligence & Synapse Lakehouse Platform

- **Hybrid Lakehouse & Cloud DW:** Ingested multi-source enterprise data from SAP ERP and SFTP servers into an Azure Blob Storage Lakehouse and an Azure Synapse Dedicated SQL Pool, developing modular SSMS views and stored procedures.
- **SSAS Modeling & DAX Tuning:** Engineered SSAS tabular models; authored complex DAX measures, utilizing DAX Studio and Tabular Editor for query optimization across 5 key milestones: Lead, Sales, Funnel, CRM, and Channel Partner (CP) analytics.
- **Executive BI & Client Governance:** Deployed multiple Power BI reports with dynamic Row-Level Security (RLS); governed delivery via living data dictionaries, proactive client communications, and multi-phase UAT sign-offs with 99.9% refresh SLA.

Project 3: Azure Synapse to Microsoft Fabric Modernization & Workload Migration

- **Fabric Workload & Pipeline Migration:** Provisioned Microsoft Fabric workspace instances (Lakehouses/Warehouses); migrated legacy Synapse ETL pipelines to Fabric Data Factory, integrating automated mail alerts and failure notifications.
- **Asset Refactoring & Power BI Cutover:** Migrated database views, stored procedures, and T-SQL transformations to Fabric; seamlessly reconnected existing enterprise Power BI reports with zero business downtime and 35% faster refresh performance.
- **Validation & Stakeholder Governance:** Updated enterprise data dictionary documentation for Fabric metadata, conducted sprint-level client communications, and led parallel-run UAT validation to guarantee 100% data and metric parity against legacy Synapse.

Enterprise Innovation & Proof-of-Concepts (POCs): Microsoft Fabric, GenAI Agents & Ontologies

- **AI Agents & Semantic Ontologies:** Prototyped autonomous Data Agents using Microsoft Copilot Studio, Microsoft Foundry, and Model Context Protocol (MCP) servers; designed Enterprise Data Ontologies enabling natural language querying over analytical models.

CERTIFICATIONS

- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Data Analyst Associate (PL-300)

EDUCATION

- **Bachelor of Technology in Information Technology** | Techno India Salt Lake, Kolkata | Graduated: 2022 | CGPA: 7.99 / 10
